MANAGEMENT DISCUSSION AND ANALYSIS

Industry Structure, Developments and Outlook

The Global Economy – Performance & Prospects

World GDP is estimated to have grown at 2.4% in 2015 as compared to 3.3% in the previous year and further strengthen over the next two years to 2.9% in 2016 and 3.2% in 2017.

The United States economy also witnessed a slowdown, growing at 2.0% in 2015 from 2.4% in 2014. However, the Country is expected to recuperate, given lower energy costs, rising household wealth and an accommodative monetary policy.

The growth rate of the Chinese economy is expected to reduce from 7.4% in 2014 to 6.8% in 2015 as the country shifts to a service orientated nation from an export driven economy.

The appreciation of the US dollar against most world currencies has realigned global demand towards Europe, Japan and a few emerging markets. GDP growth rates for both the Euro region (0.9% in 2014 to 1.4% in 2015) and Japan (-0.1% in 2014 to 0.7% in 2015) display a marginal increase and are projected to continue on the road to recovery.

The India Story

Emerging as one of the best performing economies globally, India's economy expanded by 7.2% in 2014-15 and is estimated to grow by 7.6% in 2015-16, as per the Economic Survey 2015-16.

The Union Budget for 2016-17 laid emphasis on nine areas integral to the Country's progress: a simpler taxation model, investment in infrastructure, fiscal discipline, ease of doing business, job creation, agriculture, social sector, education and rural sector.

Going forward, the Economist Intelligence Unit forecasts the GDP growth to average 7.3% from 2016-17 to 2020-21, driven by growth in employment, an expanding middle class, a gradual shift towards services from the low-yielding agricultural sector and the notably high saving and investment rates.

Travel & Tourism

Global scenario

Surpassing the growth of the global economy (2.4%), the Travel & Tourism sector grew at 2.8% in 2015. The industry's total contribution to GDP is 9.8% (US\$7.2 trillion) of the world's GDP and its total contribution to employment of 9.5% (284 million) of the total jobs in the global economy. Business and Leisure Spending crossed US\$4,700 billion within the year.

While the United States of America and China remain the largest Travel and Tourism markets, the World Travel & Tourism Council estimates the South Asian region has the highest growth rate at 6.9%.

The Travel & Tourism sector has remained resilient in 2015 and the sector is projected to continue thriving in the coming year. The strength of the US dollar will affect the price sensitive travelers' decisions. Nevertheless, the current oil prices, at their lowest in the past decade, have reduced travel costs and led to an increase in demand.

India

The Indian Travel & Tourism Industry is a significant source of foreign exchange, a major employment generator, and an integral part of the India growth story. The sector has registered prominent growth in recent years due to an expanding Indian middle class, increase in foreign tourist arrivals, a growing airline sector, and momentum from Government-led initiatives.

In 2015, the total contribution of Travel & Tourism to GDP was ₹ 8,309 billion (6.3% of GDP) and is forecasted to reach ₹ 18,362 billion (7.2% of GDP) by 2026, as per the WTTC's Economic Impact 2016 Report.

The Government has continually displayed a commitment towards augmenting the Indian tourism sector. The 2016-17 Union Budget allocated ₹ 15.9 billion to infrastructural development and promotion which is a 70% hike over the previous year. The "Clean India" campaign and development of inland waterways for transport and tourism are projects that have gained momentum over the previous year. Additionally, programmes such as "Make in India" and the "Smart Cities" initiative have highlighted the Government's support to skill development and investments in Hospitality and Tourism.

Tourism & Hospitality - Trends and Opportunities for Growth

In addition to the initiatives stated above, the Prime Minister has proactively sought foreign investment from countries such as China, the United States and Japan, leading to an increase of business related travel to the Country.

With a compounded annual growth rate (CAGR) of 6.2% between 2010 and 2015, the International Visitor Arrivals grew by 9.1% for the period of January-March, 2016 over that of the same period last year. The e-Tourist Visa now is available for 150 nations as of February, 2016 expediting travel to India from all destinations.

Domestic travel spending has also witnessed impetus, attributing 82.5% to the direct Travel & Tourism GDP. Although a large portion of domestic travel has historically been for business purposes, an increasing number of Indians are now travelling for leisure. The appreciation of the US dollar has made international travel unattractive to many who are now seeking to travel within the Country for holidays. Domestic tourism, therefore, is likely to gain traction, given the rising disposable income and abundance of low cost flights.

With reference to the Hospitality Industry, the supply of branded rooms has grown at a CAGR of 15.5% over the past five (2011-12 to 2014-15) years, with the demand for these rooms growing at a similar pace of 15.3% for the same period. The nationwide occupancies surpassed the 60% mark but were accompanied by a correction in average rates. The Food and Beverage department continued to be a major revenue generator for the Indian Hotel Industry.

The positive outlook for the Indian economy, coupled with the favourable external environment and emphasis on Travel & Tourism as well as related industries by the Government, points towards a steady upswing in the hospitality sector. As future supply dwindles concurrent with the increase in demand for quality branded accommodation, the Company is optimistic about the opportunities ahead.

ANNEXURE B TO INDEPENDENT AUDITOR'S REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **EIH Associated Hotels Limited** ("the Company") as at 31st March, 2016 in conjunction with our audit of financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

PROVISIONS, CONTINGENT LIABILITIES AND CONTINGENT ASSETS

Provisions are recognised in terms of Accounting Standard (AS-29) – 'Provisions, Contingent Liabilities and Contingent Assets' notified pursuant to the Companies (Accounting Standards) Rules, 2006, when there is a present legal or statutory obligation as a result of past events, where it is probable that there will be outflow of resources to settle the obligation and when a reliable estimate of the amount of the obligation can be made.

Contingent Liabilities are recognised only when there is a possible obligation arising from past events due to occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or where any present obligation cannot be measured in terms of future outflow of resources or where a reliable estimate of the obligation cannot be made. Obligations are assessed on an ongoing basis and only those having a largely probable outflow of resources are provided for.

Contingent Assets are not recognized in the Financial Statements.
